Healing animals naturally

SILVET ADVANCED OTIC

Is an *antibacterial/antifungal* neutral deep cleansing formulation utilizing 30ppm **Colloidal nanoparticles of silver**, purified water and 2% Boric Acid. This odorless, astringent, general broad-spectrum cleanser can be used daily or on an as needed basis.

The complex Boric Acid formula dries the ear by pulling moisture out without the use of harsh chemicals, such as alcohol or propylene glycol, which can cause ototoxicity and possibly lead to deafness or damage to the ear.

Key Benefits:

Formulated with 30ppm **Colloidal nanoparticles of silver**, **Silvet Advanced Otic** reduces the log of gram negative and gram positive bacteria as well as yeast and fungus.

Gentle, non-stinging formula is safe for daily use in dogs, cats, puppies and kittens.

Using regularly may aid in the prevention of ear infections.

Instructions:

Shake well before each use.

Twist the nozzle open.

Apply **Silvet Advanced Otic** ear cleansing solution liberally into the ear canal gently massaging the base of the ear.

The ear flap can be cleaned with **Silvet Advanced Otic** using a cottonball allowing any excess to be utilized. Close the nozzle securely after each use.

Repeat 2-3 times per week, or daily if needed, as directed by your veterinarian.

Warnings:

Do not use in ear with ruptured tympanic membrane (eardrum). If redness or irritation persists consult your veterinarian.

Size available:

7oz & Gallon
