TrueBond

Multipurpose Veterinary Centrifuge

00-376-261-000

Using the TrueBond multipurpose veterinary centrifuge, vet laboratories can now spin microhematocrit tubes, fecal, blood, urine, and more in one centrifuge.

Spin Any Tube

TrueBond is designed to spin all your tubes, from microhematocrit to urine and everything in between. Includes all necessary adapters.

Easy to Use

Minimize training time with the user-friendly interface. The fully digital display makes it easy to customize cycle parameters on the fly, or set and select one of the 10 programmable cycles.

Easy to Monitor

Process samples more efficiently with TrueBond's LED lid lighting. Once the unit is started, the display shows remaining spin time.

Safe and Durable

Enjoy years of safe, worry-free operation with the brushless motor, imbalance protection, and a clear, shatterproof lid, which locks until the centrifuge has stopped completely.

A Great Value

Each TrueBond centrifuge is ready to run with fixed angle rotor, two sets of tube holders, microhematocrit carriers, microtainer inserts, and 2-year warranty included in the affordable price.
