

Item #48018

Rhinoscopy – Cystoscopy – Bronchoscopy

These are only a few of the uses for the MDS-Vet™ Flexible Micro-Endoscope. Our scope is offered with a 300 lumen LED light source for illumination.

"This compact semi-flexible endoscope is the perfect size (1.7 mm outer diameter) for evaluating the nasal cavity of small dogs and cats. It can also be used for ear examinations, is portable and durable."

Dr. Lynelle Johnson - UC Davis

QUALITY - AFFORDABILITY - RELIABILITY

The MDS-Vet™ Flexible Micro-Endoscope is one of the smallest endoscopes in the veterinary marketplace, providing versatility in evaluating the upper respiratory and urinary tracts of most companion animals, especially exotic animals. This endoscope is easily adaptable to existing light sources and video systems.

FEATURES:

- 1.67 mm OD (1 mm available)
- 10,000-fiber image bundle
- ACMI-Storz®-Wolf light post
- Compatible with most cameras
- Completely immersible
- 8", 10" and 20" available
- Portable LED light source

INCLUDES:

- Flexible Micro-Endoscope
- Portable LED light source
- Batteries
